Karawang, Jawa Barat, 41385

I am a fresh graduate from Ahmad Dahlan University with a background in information technology. Having high enthusiasm, motivation, and strong initiative in facing challenges to develop my skills. Experienced in developing web applications using React.js and understanding server concepts and deployment with Docker. Used to working collaboratively in a team with good problem-solving skills. Ready to contribute to technology by learning and adapting to the latest developments.

EDUCATION

Ahmad Dahlan University

Yogyakarta, Indonesia

Bachelor Degree in Informatics | GPA: 3,86/4.00

2020 - 2024

- Public Relations and Protocol Team Member, responsible for representing the university at official events, managing communication between the institution and external parties, coordinating event protocols, and facilitating guest receptions.
- Laboratory Assistant for 3 years, guiding students in practical sessions, providing technical support for laboratory activities, preparing learning materials, and assisting lecturers in evaluating student performance.
- Research and Development Project Assistant, collaborated with lecturers on a project to design, develop, and improve the Muhammadiyah Asset Management Information System, contributing to both technical implementation and system optimization.

WORK EXPERIENCE

PT. Bank Syariah Indonesia, Tbk

Yogyakarta, Indonesia

Frontend Developer

2024 - 2025

- Designed, developed, and maintained responsive web applications using React.js, ensuring high performance, accessibility, and seamless user experience across devices.
- Integrated RESTful APIs and optimized state management using Jotai and Redux, enhancing application efficiency, scalability, and maintainability.
- Collaborated with backend developers to ensure smooth data flow and troubleshoot integration issues, improving overall system reliability.
- Conducted unit, functional, and integration testing using Vitest and JUnit, ensuring application stability, functionality, and bug-free releases.

Majelis Wakaf Kehartabendaan Muhammadiyah

Yogyakarta, Indonesia

Frontend Developer

2023 - 2024

- Developed and maintained the Muhammadiyah Asset Management Information System using Laravel and Bootstrap, ensuring a responsive and user-friendly interface.
- Implemented intuitive UI designs using Blade Template Engine and enhanced user experience through Bootstrap, creating dynamic and responsive components.
- Conducted black-box testing to validate system functionality and user interactions, ensuring compliance with requirements and delivering a seamless user experience.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

Yogyakarta, Indonesia

Cohort of Mobile Developer

2023

- Gained a strong understanding of fundamental programming concepts and core development skills, including problem-solving, debugging, and writing clean, efficient code.
- Collaborated with a team on final project assignments, applying knowledge to real-world scenarios, improving teamwork, and enhancing project management skills.
- Learned to develop intermediate-level Android applications, focusing on best coding practices, UI responsiveness, and seamless integration with backend services.

Informatics Laboratory Ahmad Dahlan University

Yogyakarta, Indonesia

Lab Assistant Databases, Object Oriented Programming, Web Programming, AI, Algorithmic

2022 - 2024

- The Informatics Practicum Assistant assists lecturers during practicum sessions by guiding students through technical concepts and troubleshooting issues.
- Their main responsibilities include preparing pretests, instructional materials, practicum steps, and posttests to assess student progress.
- Additionally, they provide comprehensive teaching materials to help students understand and apply theoretical concepts in practical scenarios.
